

7 STRENGTHS :

World-wide Mecca for
Fertility and Reproductive Medical Science

- 1 The highest In-Vitro Fertilization (IVF) success rates in the area with the best facility.
- 2 The nation's leading surgical operation and treatment hospital for male infertility.
- 3 Excellent medical care services supported by the world-widely selected medicine for Assisted Reproductive Technology (ART).
- 4 Friendly counseling with personalized attention to patients and high quality medical care.
- 5 Winning awards from diverse international scientific meetings for outstanding research results.
- 6 Centralized reports and articles from major mass media and publications such as 'Time' and 'People'.
- 7 Fertility treatments with new concepts that are linked to stem cell treatment research, as well as molecular genetics research for patients with idiopathic infertility.

Gimpo #6000

Incheon #6009

- Get off at Yeoksam or Shinnonhyun

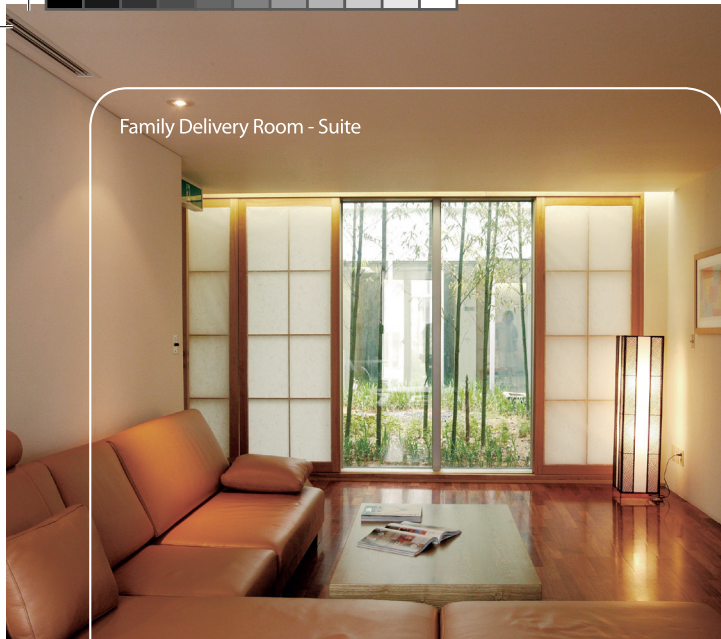

CHA Gangnam Medical Center,
CHA University

INTERNATIONAL CLINIC

2012. 04. 09

English

CHA Gangnam Medical Center, CHA University, founded in 1960, has become one of the most respected medical and health care providers in the nation. Since then, we've established a global network of medical services throughout Asia and the United States. Although our hospital is renowned for its outstanding OB/GYN and Fertility Center, we also provide a full range of health care services, including internal medicine, general surgery and pediatrics, as well as highly specialized diagnostic and treatment procedures with the most up-to-date medical equipments.

In order to globalize our medical services, our International Clinic provides the best quality health care to foreigners residing in and/or traveling through Korea. We offer translations in English, Spanish, Russian, Mongolian and much more in order to minimize communication barriers between patients and physicians. With English speaking doctors, nurses and coordinators, our International Clinic is committed to continuously strive to become your health care system of choice.
